## HOW TO GET RID OF CATARRH

A Simple, Safe, Inexpensive Method that Clears Out the Head, Nose and Throat.

There is no disease more offensive or disagreeable or so distressing as catarrh. You can now get rid of it by a simple, safe, pleasant, home remedy discovered by Dr. Blosser, a catarrh specialist.

Dr. Blosser's Remedy is composed of medicinal herbs, flowers and berries, which you smoke in a dainty pipe or cigarette. The smoke-vapor is inhaled into all the air passages of the head, nose, throat and lungs. It contains no opium or tobacco and can be used by women and children as well as men.

This medicinal smoke carries medicine where a spray, cough or ointment cannot reach. It soothes, cleanses, and cures the inflamed membrane of the nose, throat and lungs. If you are a sufferer from catarrh, asthma, colds, coughs, or any of the above, you should try this Remedy without delay.

Any well-stocked drug store can supply Dr. Blosser's Remedy in cigarette or powder form for smoking in a pipe or will order it for you. Satisfaction results guaranteed by a genuine, money-back offer.

A trial package will be mailed promptly to any sufferer for ten cents (with no stamps) by The Blosser Co., 117 E. 12th St., Atlanta, Ga. To prove its effectiveness and remarkable effectiveness—adv.

However, the Marmalee Prescription Tablets, of which thousands are overjoyed, are absolutely harmless, contain no opium or other dangerous drugs, and give the added advantage of cleansing. Get little tablets after each meal and at bedtime—no other pills or medicine. They will reduce your weight one, three or four pounds a week, and leave no bad results such as weakness or dizziness. A good diet for a week will demonstrate the remarkable power of the Marmalee Co. 14 Central Building, Detroit, Mich. They will send you a mail, circular, in plain, sealed cover.

Now that you know this you have no excuse for being too fat, but can reduce. There is no other possible work without loss of health or efficiency.

Many back without causing ITCHING, SALVAGE, and the treatment of ECZEMA, ERYTHRODERMA, and other skin diseases. Trial at drug stores, or direct from The Marmalee Co., Chicago, Ill.

## Beauty Chats

By EDNA KENT FORBES.

**The Youthful Neck.**  
IT ALWAYS seems strange to me that it should be necessary to advise a woman to take special care of her neck. It is easy to rub cold cream on the neck at the same time that it is rubbed on the face. It is not a bit of trouble, and it really takes no extra time at all.

Practically every woman rubs cold cream into her neck every few days. If she were to rub a little cream into the neck at the same time she would never complain about a neck that is stained, browned, and dirty in appearance, and she would not be so likely to complain of premature wrinkles. She had not necessarily taken time to massage her neck, for if she only lets the cream stay on the skin during the few minutes that she is rubbing it in her face, it will still be a great deal of good. For the pores will have a chance to absorb

the oil, which will cleanse them and leave them in better condition to carry out their natural functions. A little forethought like this will keep the neck youthful until far beyond middle life. Of course, if there are deep lines in the neck you will have to massage a little in order to stimulate those lax muscles, and you will have to use special creams which will actually nourish the skin. You will find such creams in various shops, and you will find the same almost everywhere. Above all, remember never to wear tight collars, for these will do more than anything else to make your neck look old and flabby.

W. P.—The mixture is made from two parts of lanolin and one part of powdered borax and one part of almond oil. Mix the ingredients thoroughly, then use on the face in place of soap.

## 30 Years a Butter Expert

Now he perfects Troco flavor

All will agree that no food product is more inviting, more wholesome, more nutritious than the snowy coconut fat from which Troco is made. Coconuts are the principal food of healthy tropic races.

This new plant is equipped with every possible facility. Sanitary conditions are ideal.

Working in this perfected plant, Mr. Hoffman has full scope for his ability.

Impart the sweet, delicate butter flavor to this pure, rich nut fat and you have an ideal product.

This is what we have done in the perfection of Troco.

**Introducing Mr. Hoffman**  
Mr. A. E. Hoffman, a butter and milk expert with 30 years' experience, has come to the Troco Company.

All during this 30 years he has made butter, judged butter and taught butter-making. He has been called upon wherever butter associations meet.

Since Troco is churned like butter, since it owes its flavor to the same culture, Mr. Hoffman's supreme skill and experience are but exerted in a wider field.

**Made in new model plant**

We have provided Mr. Hoffman with every possible help in his work of perfecting Troco.

We have built a splendid new plant, designed solely for the production of de luxe margarine.

**Made from the finest materials**

All milk used in churning Troco comes from inspected herds. Snowy coconut fat, expressed from the white meat of coconuts, is imported from the Tropics.

Both milk and coconut fat are handled in the most scientific way possible. This is made possible by our unequalled facilities. The flavoring culture is perfected in the Troco laboratories by Mr. Hoffman.

Result—fancy Troco, perfected Troco, standardized Troco, which every user will thoroughly enjoy.

**Pay a few cents more**  
Troco is the fancy brand of nut margarine. So naturally it may always cost a few cents more.

We cannot maintain such quality and meet price competition. But we can assure you of the perfection of every pound.

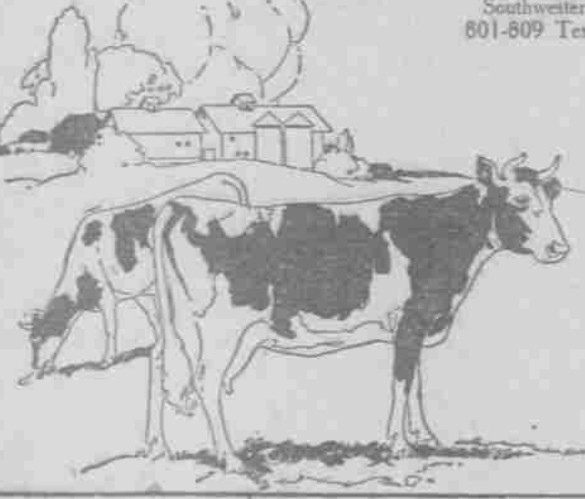

**NOTICE**  
Regarding Mr. Hoffman's services. Up to the time of his recent connection with the Troco Company, Mr. Hoffman's advice and counsel was greatly in demand by Agricultural Colleges, Dairy Schools and Associations, Educational Organizations, Women's Clubs, etc. We wish him to continue this good work and his services will still be available for this purpose, with the hearty co-operation of this company.

The latter, added Mr. Boyden, also represented president Wilson's views.
